IN SOLID STAINLESS STEEL

These Bedpans and Kidney Bowls in mirror-polished solid stainless steel fulfil the most exacting demands of hospital authorities and staff. They provide comfort for the patient, are perfectly hygienic, extremely serviceable and light in weight.

The Bedpans are seamless, and have drainage holes in open half-roll lip.

The Kidney Bowls have open half-roll edge and are designed to nest, thus saving storage space. In 3 sizes—8" x 1½" deep, 10" x 2" deep and 12" x 2½" deep.

These are but two items from the extensive range of "Atec" Surgical and Medical Equipment in Solid Stainless Steel—the modern material for modern hospitals.

Penicillin Chewing Gum A&H presents penicillin incorporated in a base predominantly mint-flavoured and designed to maintain the potency of the medicament.

When chewed slowly it provides an effective concentration of penicillin in the mouth for three to four hours. It is thus the preparation of choice in the treatment of Vincent's infection, tonsillitis and other buccal and pharyngeal infections due to penicillin-sensitive organisms.

CALGITEX ALGINATES in Aural Surgery

THE FENESTRATION OPERATION brings new hope of alleviation from the progressive deafness resulting from otosclerosis. A most delicate operation requiring the utmost skill, success depends largely on the use of a suitable postoperative dressing.

Alginate gauze has proved itself a satisfactory dressing for this operation and in aural surgery generally.⁽¹⁾ A special E.N.T. grade of Alginate gauze has been developed which may be left in situ holding skin flaps in position until healing is assured. It is removable, without anaesthesia, by gentle traction or it can be dissolved in saline or sodium citrate solution. It is compatible with penicillin or the sulphonamides.

Alginate dressings enable the skill of the surgeon to achieve its best results.

A SPENCER Support Prescribed for Lumbo-Sacral Sprain

This patient is 32 years of age. A Spencer Support with rigid back and an outside pelvic binder was prescribed for relief of acute lumbo-sacral sprain.

Symptoms were first noticed in July, 1947, following a fall on rocks. The symptoms disappeared for a period and then reappeared October, 1947, with acute discomfort. The patient was referred to an Orthopaedist in January, 1948, who, following X-rays and other examinations, diagnosed the condition as acute lumbo-sacral sprain.

The patient's Spencer Support was applied January, 1948, and surgery was delayed until the effectiveness of the support in relief of symptoms could be demonstrated. The patient states that he obtains comfort and relief from symptoms while wearing

the support. In the photographs above note the improvement in the postural line.

Do your diabetic patients co-operate fully?

A vital phase of diabetes management is the daily testing and recording of the patient's urine-sugar. This has generally involved such inconvenience, loss of time and technical difficulty as to lead to carelessness and lack of full co-operation by the patient. But these objections are completely overcome with the introduction of—

CLINITEST

The new one-minute **No-heating** Tablet Method for detecting urine-sugar.

VITAMINS PLUS—WHAT?

There's more than vitamins in SevenSeaS

The vitamin story is not the whole story—the vehicle which carries them and the manner in which they are carried are of great significance. Vitamins A and D, as well as pro-vitamin A, are fully efficient only when they are dissolved in oil. But what of the oil? And of the manner in which the vitamins are associated with it? Isolated or synthesized vitamins dissolved in oil are not the same thing as the natural combination of the vitamins with the oil that characterizes cod liver oil.

Cod liver oil is richer in metabolically important unsaturated and readily digestible fats than any other edible oil or fat. Unsaturated fats are important in themselves and are doubly so when, as in the case of cod liver oil, the vitamins are an integral part of them.

SevenSeaS cod liver oil, extracted at sea from fresh livers, presents both the unsaturated fats and the fat soluble vitamins in their ideal combination for meeting nutritional needs and especially those of convalescents, mothers, and children.

PROGRESS

in the relief of pain

Culmination of four years' work in the Glaxo Research Laboratories was the recent synthesis of an analgesic exhibiting unique properties. Originally coded 'C.B.11', the compound has been the subject of many clinical trials including that reported in the British Medical Journal (1948, 2, 533). 'Heptalgin'—the name now adopted—was shown in these tests to abolish pain with little or no cortical depression or drowsiness, nor did it appear to cause euphoria. 'Heptalgin' has an analgesic potency about three to four times that of morphine, twenty times that of pethidine and at least five times that of amidone; yet its acute toxicity is relatively much lower than that of these other compounds. Indeed, all available evidence points to a prominent place for 'Heptalgin' in the future of analgesia.

Available on Dec. 15th.

The **HECSON** SUPER ELASTIC TRUSS for the Treatment of Hernia

Strap is fixed to Pad at A. Therefore greater pressure is exerted at B, when the strap is pulled tightly.

Where treatment of Hernia by surgical methods is undesirable for any reasons, the HECSON super elastic truss can be confidently recommended. The Special Feature of the HECSON Truss is that the perineal or under strap is attached to the top of the pad instead of the lower margin as in the ordinary elastic or old spring truss. Thus it becomes part of the leverage mechanism for increasing the pressure of the pad at its base.

Colloidal Hydroxide of Aluminium

Rational Antacid Therapy

APART from those cases due to actual organic disease, the treatment of the syndrome of symptoms known as indigestion generally resolves itself into an attempt to overcome hypersecretion of acid and to soothe the irritated or inflamed gastric mucosa.

That "Alocol" possesses intrinsic qualities which render it particularly valuable as a gastric sedative and antacid is now well established. Unlike sodium bicarbonate it does not give rise to secondary acid secretions nor to the discomfort of gas formation.

"Alocol" neutralises the excess acidity of the gastric contents to the most favourable degree for the promotion of healing of the damaged mucosa. It is prompt in the relief of pain and effects a soothing influence upon the gastric mucosa.

"Alocol" is free from the danger of alkalosis and excess dosage produces no ill effects.

"Alocol" is available in the form of Powder, Tablet and Cream. **Powder**—The normal dose is 1 gramme before and after meals. **Tablets**—Each tablet contains Alocol, 0.5 gm.; P. Sacch. Alb., 0.4 gm.; Cocoa Powder, 0.035 gm.; Excipient, q.s. The normal dose is 2 tablets before and after meals. **Cream**—Formula: Alocol 6.0 parts approx.; Glycerin 5.0 parts; Ol. Menth. Pip. 0.005 parts; Aq. Chlorof. 4.0 parts; Aq. Dest. to 100.0 parts. The normal dose is 1 to 3 teaspoonfuls between meals and at bed-time.

Compensation FOR THE SERIOUS LACK of FAT

World-wide rationing has reduced our fats and in consequence our fat-soluble vitamins. Angier's Halibut Liver Oil Capsules solve the problem of how the physician can prescribe the essential fat-soluble vitamins A & D, because Halibut Liver Oil is so rich in these *natural* vitamins that Angier's are able to put enough into two or three small, tasteless and easily swallowed capsules to provide the body's entire requirements for the whole day. Thus Angier's Halibut Liver Oil Capsules enable the physician to prescribe a preparation which can justly be expected to help in countering some of the more serious results of our dietary lack of fat.

CLEANER

—because it's smoother

Nylon yarn is friendly to hygiene—too smooth for dirt to cling to readily, easy to launder when it does get soiled. In and out the washtub, dry in no time—and many nylon fabrics need no ironing at all. A winner for hospitals where cleanliness counts double—so nylons make sheets, nurses' uniforms and surgeons' gowns. They wear and wear as only nylon can.

Prescribing a Laxative

When the Physician is called upon to prescribe a laxative for prolonged or occasional use, Andrews merits special consideration. Andrews is pleasant-tasting. Its effervescence has a refreshing quality that makes it an acceptable draught. Andrews causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion, which, acting by osmosis, induce easy, painless evacuation. Andrews is particularly suitable for patients liable to digestive upsets. It allays gastric discomfort and nausea. It also improves the flow of bile, and helps to check biliousness and sick headaches. No costive reaction results when Andrews is discontinued.

APPROX. ACTIVE CONSTITUENTS:

Tartaric Acid	29.20%
Sodium Bicarbonate	31.00%
Magnesium Sulphate	19.00%
Sugar	20.78%
Saccharin	0.02%

Applications are invited for the post of Senior Assistant Medical Superintendent. The officer appointed will be required to assist the Medical Superintendent in the administration of the hospitals of the group comprising Aberdeen Royal Infirmary, Woodend Hospital, Aberdeen Eye Institution, Morningfield Hospital, and the Convalescent Hospital, Cults. Inclusive salary will be within the range of £850 to £1,000 per annum, subject to superannuation deductions at the rate of six per cent per annum. Applications, stating age, qualifications and experience, and giving the names of three referees to whom reference may be made, should be lodged on or before December 25, 1948, with the Secretary, North Eastern Regional Hospital Board, 1, Albyn Place, Aberdeen, from whom a copy of the conditions of the appointment may be obtained.

EASTERN REGIONAL HOSPITAL BOARD (Scotland)

TWO ASSISTANT TUBERCULOSIS PHYSICIANS, Dundee

Applications are invited from registered medical practitioners for the above appointments. Both posts are whole-time and the duties are mainly connected with the diagnosis and supervision of cases of pulmonary tuberculosis, but there will be opportunity for hospital work. Applicants should have had previous experience in general medicine and tuberculosis and special consideration will be given to those holding a higher qualification and/or experience in the radiological diagnosis of diseases of the chest. One of those appointed will be responsible for the work of the Mass Radiography Scheme under the direction of the Senior Tuberculosis Physician. Interim salary scale £735 by £25 to £935 per annum with placing on scale according to qualifications and experience. The salary is provisional and will be adjusted when national scales are settled, the adjustment to date from the time of taking up duty. The posts are on the permanent staff of the Board and are subject to the National Health Service (Scotland) (Superannuation) Regulations, 1948. Notice of termination will be three months on either side. Applications for either post, with the names of three referees, should be sent to the Secretary, Eastern Regional Hospital Board, "Braeknowe," 430, Blackness Road, Dundee, not later than January 15, 1949.

EASTERN REGIONAL HOSPITAL BOARD Scotland
RADIOLOGIST

Applications are invited from registered medical practitioners for the appointment of Radiologist at Stracathro Hospital, Brechin, Angus. Applicants should hold a recognized Diploma in Radiological Diagnosis. The appointment is whole time, terminable by three months' notice on either side, and is subject to the National Health Service (Scotland) (Superannuation) Regulations, 1948. Remuneration is at a fixed rate of £1,000 per annum, which is to be regarded as an interim payment pending the fixing of national scales. Any subsequent adjustment will be effective from the date of taking up duty. Applications, giving the names and addresses of three referees, should be lodged with the Secretary, Eastern Regional Hospital Board, "Braeknowe," 430, Blackness Road, Dundee, not later than December 31, 1948. Canvassing, directly or indirectly, will disqualify.

COUNTY COUNCIL OF THE COUNTY OF
LANARK**

**EDUCATION COMMITTEE
School Health Service**

**EXECUTIVE SCHOOL MEDICAL OFFICER
who will have the status of a Senior Assistant
Medical Officer of Health**

Applications are invited from registered medical practitioners (male) for the above post. The duties comprise the inspection and supervision of the school medical work in the County and Burghs of Lanarkshire (school population approximately 90,000), including the making of all necessary arrangements, the allocation and control of staff, and the conduct of correspondence in connexion with the work and such other duties as may from time to time be applicable to the post. The person appointed shall work under the general administrative control of the Medical Officer of Health of the County, who is Chief Administrative School Medical Officer. Candidates must be in possession of the D.P.H. or D.C.H. qualification and special consideration will be given to any candidate also possessing the D.P.M. If a person possessing the last mentioned qualification is appointed he would also be the officer responsible for the conduct of the Local Authority's functions under section 51 of the National Health Service (Scotland) Act, 1947, and the post would then carry an additional salary of £100. Previous experience of school medical work (including specially the ascertainment of mental deficiency) is essential. The scale of salary for the appointment is £900 to £1,100, subject to review in the light of any nationally agreed scale, with placing according to experience. The post is superannuable and the successful candidate will be required to pass a medical examination. Canvassing, either directly or indirectly, will be a disqualification. The person appointed will be required to live in within the area and no house is provided. Headquarters will be in Hamilton and travelling expenses necessarily incurred in the discharge of the duties will be payable from headquarters. Applications, accompanied by three recent testimonials, along with the names of three other referees, should be forwarded to the Subscriber not later than fourteen days after the last appearance of this advertisement.—Wm. C. Brownlie, County Clerk, Lanarkshire House, 191, Ingram Street, Glasgow, C.1.

SOUTH WEST METROPOLITAN REGIONAL HOSPITAL BOARD NEUROPATHOLOGISTS (2 posts)

The Regional Board proposes to establish departments of neuropathology at St. Ebba's Hospital, Epsom (psychiatry), and at the Fountain Hospital, S.W.17 (mental deficiency), and to appoint a fully qualified medical practitioner to each hospital who will organize and develop his department. Applicants should possess either psychiatric or neuropathological experience. In the former case applicants should possess the D.P.M. or have equivalent experience, and arrangements will be made for seconding to the Institute of Psychiatry (Maudsley Hospital) for a year's training in neuropathology which may be extended if necessary. In the second alternative, arrangements would be made for the successful applicant to have a period of clinical experience and instruction in psychiatry. In either case the first three months of the training period would be probationary, and after this period the trainee would be required to enter into an undertaking to continue in the Board's service for at least two years following the completion of training. The departments will be concerned predominantly with research into psychiatric and mental deficiency problems respectively. Experience of general pathology will be an added recommendation but is not essential; and it should be the applicant's intention to specialize in neuropathology. Salary during the training period will be in the range of £1,020 to £1,220 according to experience, and the appointment will be subject to the provisions of the National Health Service (Superannuation) Regulations, 1947. Applications, stating age, qualifications, experience and present appointment, and giving the names and addresses of three referees, should be made by letter and sent (in envelopes endorsed "Medical Appointment") to the Secretary, South West Metropolitan Regional Hospital Board, 11a, Portland Place, London, W.1, arriving not later than December 30, 1948. The application should state for which hospital the candidate is applying. If he wishes to be considered for both, priority should be indicated. Canvassing will disqualify.

SOUTH WEST METROPOLITAN REGIONAL HOSPITAL BOARD WEST PARK HOSPITAL, Epsom PHYSICIAN AND ASSISTANT PHYSICIAN

Applications are invited for the whole-time appointments of (i) Physician, and (ii) Assistant Physician, at the above hospital. Provisional salary will be at the rate of £1,450 per annum for the Physician, and £1,000 per annum for the Assistant Physician, subject to review when the Spens Report is implemented or in the light of adjustments on a national basis. Candidates should possess the D.P.M. or its equivalent and in the case of the senior appointment a higher medical qualification is desirable. The main duties of the successful candidates will be to work in the observation wards at St. John's Hospital, Battersea (56 beds), where it is hoped that short-term treatment may be undertaken in selected cases. The posts offer an attractive experience in acute psychiatry. After a period of six months it will be possible for both officers to take up in-patient work at the parent hospital. The appointments will be subject to the National Health Service (Superannuation) Regulations, 1947, or the Asylum Officers' Superannuation Act, 1909, and terminable by three months' notice on either side. Applications, stating age, qualifications, experience, and present appointment, and giving names and addresses of three referees, should be made by letter and sent (in envelopes endorsed "Medical Appointments") to the Secretary, South West Metropolitan Regional Hospital Board, 11a, Portland Place, W.1, to be received not later than December 31, 1948. Canvassing will disqualify.

SOUTH WEST METROPOLITAN REGIONAL HOSPITAL BOARD BANSTEAD HOSPITAL, Sutton, Surrey PHYSICIAN

Applications are invited for the whole-time appointment of Physician at the above hospital. Provisional salary will be at the rate of £1,450 per annum, subject to review when the Spens Report is implemented or in the light of adjustments on a national basis. Candidates should possess the D.P.M. or its equivalent and a higher medical qualification is desirable. The main duties of the successful candidate will be to work in the observation wards at Fulham Hospital, W.6 (19 beds), where it is hoped that short-term treatment may be undertaken in selected cases. The post offers an attractive experience in acute psychiatry. After a period of six months it will be possible for the officer to take up in-patient work at the parent hospital. The appointment will be subject to the National Health Service (Superannuation) Regulations, 1947, or the Asylum Officers' Superannuation Act, 1909, and terminable by three months' notice on either side. Applications, stating age, qualifications, experience and present appointment, and giving names and addresses of three referees, should be made by letter and sent (in envelopes endorsed "Medical Appointments") to the Secretary, South West Metropolitan Regional Hospital Board, 11a, Portland Place, W.1, to be received not later than December 31, 1948. SOUTH WEST METROPOLITAN REGIONAL HOSPITAL BOARD PSYCHIATRIC REGISTRARS-IN-TRAINING

Applications are invited for six of the above posts. Candidates should hold a registered medical qualification, and have had at least six months' experience as a house physician in a general hospital. Preference will be shown to those who have spent at least six months as house physicians in mental hospitals or mental deficiency institutions, and who intend, in the light of their experience, to specialize in psychiatry. The registrarships will normally be held for two years, and each registrar will work in turn in each of three hospitals during this period. During the first phase of nine months he will work in a group receiving organized instruction, and arrangements will be made for attendance at a neurological out-patient department. In the second phase he will work in a hospital with a comprehensive mental health service, and will take on a measure of clinical responsibility. During this period tuition will be given in child psychiatry. During the final phase of training, which will extend over six months, the registrar will go to a mental deficiency institution. The course is planned on the basis of the requirements laid down for the English Conjoint D.P.M. The hospitals concerned will afford all the necessary facilities for study, will hold regular case conferences, and possess adequate libraries. These hospitals are Belmont (Sutton), St. Ebba's, and Netherne (phase 1); Graylingwell, Warrington Park and St. James, Portsmouth (phase 2); Fountain, Botleys Park, and Manor (phase 3). Registrars will be expected to take Part I of the D.P.M. within the first year, and to complete the examination at the end of the course. The first six months of the training period will be regarded as probationary. Salary will be at the rate of £700 per annum during first year and £800 per annum during second year. Applications, stating age, qualifications, experience, and present appointments, and giving names and addresses of three referees, should be made by letter, and sent, in envelopes endorsed "Psychiatric Registrar," to the Secretary, South West Metropolitan Regional Hospital Board, 11a, Portland Place, London, W.1, not later than December 31, 1948. Canvassing will disqualify.

An important advance in Antisepsis

Streph is an important advance in antisepsis, being non-selective in action and effective against a wide range of pathogens.

Its activity is maintained in the presence of proteins and it is non-necrotic, non-toxic and non-staining.

It is miscible with water, normal saline and alcohol. Streph is a powerful deodorant and approximately

three times as effective as Liq. Chloroxynolis or lysol.

These advantages make Streph the better antiseptic for medical, surgical and obstetrical use.
